

AUTOMATIC CHANGEOVER PANEL – LOVATO CONTACTOR TYPE

Specific Detail:

External protection: IP42
 Internal protection: IP2X
 Switching device: 4 pole AC1 Lovato contactors
 Operating voltage / Hz: 380-440 / 220-254v 50/60 Hz nominal
 Operating temperature range: - 10° to + 35°C

Equipment:

Electronic ATS control module DSE331

- Configurable inputs (4)
- Configurable volt-free outputs (4)
- Configurable DC outputs (4)
- LED indicator
- Front panel/PC configuration
- Remote monitoring
- Source 1/Source 2 control
- Configurable timers
- Start inhibit
- Load inhibit
- Automatic switch-over between supplies
- Single event scheduler
- 3-phase display

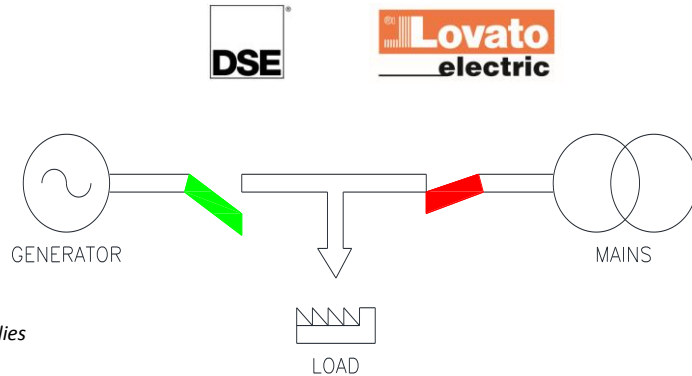

4pole pair of mechanically and electrically interlocked contactors

12/24v DC self seeking power supply unit

Set of control circuit protection miniature circuit breakers

Set of power terminals for utility / generator & load cable connections

Earth bolt / bar

All panels supplied with full general arrangement & electrical CAD drawing package and factory test certificate.
